3109 digital door lock

Combining high security with cutting edge technology, the Yale 3019 Premium Digital Door Lock is a high quality security solution for the contemporary home.

Suitable for both timber and aluminium applications, the Yale 3109 Premium Digital Door Lock can be used with PIN code, proximity cards or key. There are also a range of accessories available for easy, keyfree access to your home.

VARIOUS ACCESS

Three access solutions, PIN code, proximity card, or key for your convenience.

SMART TOUCHPAD

To prevent the password from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by wiping the keypad with your palm after entering the password.

SCRAMBLING CODE

You can add meaningless numbers before or after the code when there is a chance of exposing your code to others.

AUTOMATIC LOCKING - SELECTABLE

Automatically locks the door after checking it is properly closed. (Manual operation is also selectable)

SAFE HANDLE - SELECTABLE

When enabled, the button on the inside handle must be depressed before the lever will operate. This is a child safety feature as small children will have difficulty opening the door.

ALARM (BREAK-IN / DAMAGE)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

LOW BATTERY AND EMERGENCY POWER

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply power to the lock from outside with a standard 9V battery.

ACCESSORIES

Remote control, wall remote*, prox dots, aluminium strike kits and rebate kits are all available as optional accessories.

**Remote control and wall remote require receiver module, sold separately.*

4109 digital door lock

Never carry keys again with the Yale 4109 Fingerprint Digital Door Lock - an intelligent biometric lock with advanced one-touch fingerprint verification technology. With its sleek design and cutting edge features, this is a premium security solution for the contemporary home.

Suitable for both timber and aluminium applications, it can be used with PIN code, fingerprint verification or key. There are also a range of accessories available for easy, keyfree access to your home.

Yale®

VARIOUS ACCESS

Three access solutions, PIN code, fingerprint verification or key for your convenience.

ONE-TOUCH FINGERPRINT VERIFICATION METHOD (EASY SCAN)

Easy Scan technology has been applied to conveniently read a fingerprint in one shot without the need to open or close the cover to enter a fingerprint.

SMART TOUCHPAD

To prevent the password from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by wiping the keypad with your palm after entering the password.

SCRAMBLING CODE

You can add meaningless numbers before or after the code when there is a chance of exposing your code to others.

SAFE HANDLE - SELECTABLE

When enabled, the button on the inside handle must be depressed before the lever will operate. This is a child safety feature as small children will have difficulty opening the door.

ALARM (BREAK-IN / DAMAGE)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

LOW BATTERY AND EMERGENCY POWER

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply power to the lock from outside with a standard 9V battery.

ACCESSORIES

Remote control, wall remote*, prox dots, aluminium strike kits and rebate kits are all available as optional accessories.

mechanical entrance set

Yale has set the standard for affordability and functionality with this mechanical Entrance Set, making it the ideal solution for digital keyless entry. This includes the hold-open snib as a standard feature adding convenience for whenever quick entry or exit is required or when the house is occupied.

HOLD OPEN

Hold-open snib allows latch to retract when engaged, allowing the door to remain unlocked when house is occupied.

DOOR THICKNESS

Standard set accommodates an increased range of door thicknesses, now between 28-54mm.

DEAD LATCHING BACKSET

Standard 60mm backset.

PRODUCT SPECIFICATION	
Type	Mortice lock
